

PROFILE

 Zurich, Switzerland

 Swiss, Italian

LANGUAGES

German: native, fluent
English: fluent
Italian: intermediate
French: intermediate
Japanese: JLPT N4, conversational

HOBBIES

- Playing Guitar
- Martial Arts
- Learning Japanese
- Bouldering

DARIO TENORE

PROFILE

Reliable and curious student of computer science. Interested in a variety of topics with a focus on machine learning and its various applications for computer vision. Motivated and always open to learn new things and tackle challenges.

SKILLS

- Advanced programming knowledge in C, C++, Java, Python, as well as basic knowledge of other languages such as JavaScript and Haskell.
- Experience with various machine learning libraries and frameworks, such as TensorFlow and PyTorch. Both frameworks used for computer vision tasks.
- Comfortable at working in a team and at communicating with others.

EDUCATION

Student in Computer Science MSc

ETH Zurich | 09/2022 – Present

Major: Visual and Interactive Computing

Minor: Machine Learning

Exchange Semester

Tokyo Institute of Technology | 09/2023 – 02/2024

Visiting Research Student at Shimozaki Laboratory

Computer Science BSc

ETH Zurich | 09/2019 – 09/2022

Core Courses: Systems and Software Engineering, Information and Data Processing

Japanese Language Exchange

EF Tokyo | 05/2019 – 07/2019

Japanese A1.2

PROFESSIONAL EXPERIENCE

Research Assistant

ETH Zurich | 10/2024 – Present

Assisting the chair of systems design in the collection, processing and analysis of data regarding global antibiotic traffic. Maintaining a cleaned SQL database.

High School Teacher

Kantonsschule Uetikon am See | 08/2022 – 08/2023

Teaching robotics, using LEGO Mindstorm, to 7th grade students.

Teaching basic computer science to 8th grade students.

Programming Project Instructor

ETH Zurich ABZ | 11/2021 – 06/2022

Instructor for multiple projects at elementary schools. Students learn to program with xLogo and learn basic computer science concepts.

Data Processing Employee

Netcom AG | 09/2018 – 03/2019

Import, export and maintenance of ERP data. Creation of macros and SQL scripts. Documentation of various company processes. Revamp of the structure of the internal product-system and the webstore.
